Belle Glade Road Work Is Done By County Forces

Another piece of road construction has just been completed in this area, according to County Commissioner Paul Rardin, who said yesterday that Rubin Construction Company of West Palm Beach had completed retreading Ice Plant road on the northern city limits of Belle Glade. The work was done under contract from the county at a cost of \$10,000, Rardin said.

Another project just completed by county road forces in the Belle Glade area was construction of a sidewalk built of shell from the high school building to the athletic field, according to Rardin. County road force joined the school board crew in actual construction work.

County workmen this week completed demolishing the old county barn which stood in the now thickly populated Northmoor area of Belle Glade. Many years ago when the barn was constructed to care for county equipment, it was located in an area north of the bridge which was sparsely populated. Today that area is a fast growing section of the city and county equipment has been moved to the new county barn on SR15 north of Belle Glade which was erected by the county commission under the direction of Commissioner Rardin.

Blue Devils Prep For Fort Pierce

The Pahokee Blue Devils have been Childress-minded in their practice sessions this week, trying out various defense patterns which they hope will snare Bill Childress, the Fort Pierce Eagles ace halfback, who scored all three touchdowns in the Eagles 20-7 victory over Seacrest last Friday.

Coach Webb Pell and Line Coach Bill Howard, working Tuesday with a full squad with no injuries reported, told the Blue Devils they have a full-sized job cut out for them in their trip to Fort Pierce this Friday night. Although Fort Pierce was held to a surprising scoreless tie by Stuart in its opener, Pell regards Coach Hank Shay's Eagles as potentially the strongest team in the Suncoast Conference. A team amply supplied with reserve strength and hard to stop once it starts clicking.

Pell says he will probably start for the Blue Devils Don Waddell, left end; Ronnie Elliott, left tackle; Jim Hoyle, left guard; Bobby Bush, center; Ronnie Hitchcock, right guard; Tommie Elliott, right tackle; Chat Clark, right end; George Mills, quarterback; Pat Turbeville, left half; Hal Rosenberg, right half; Richard Weeks, fullback.

The squad will be accompanied to Fort Pierce by the Pahokee High School Band and a large group of local rooters.

Business Club In Year's Planning

The Pahokee Business and Professional Woman's Club at a business meeting Tuesday night at the home of Mrs. Doris Sasser made plans for special club activities in observance of National Business Woman's Week next week, Oct. 10-16.

On Tuesday B&PWC members will be guests of the Pahokee Lions at their weekly luncheon meeting in the Woman's Club building. On Tuesday evening the Pahokee B&PWC will entertain at the city park with an outdoor party and wiener roast, members of the Belle Glade B&PWC to be guests.

Plans were made to serve as host jointly with the Belle Glade Club at the B&PWC District meeting in Belle Glade in November. Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

A tax roll showing Palm Beach County's intangible tax assessments to be the third highest in the state, was approved by the county commission this week.

County Tax Assessor James Owens, Jr., told the commission he believed the county's intangible tax valuation of \$576,044,680, to be only surpassed by similar valuations in Dade and Duval counties. This assessment is expected to raise \$522,096 in revenue this year.

Certification of the roll Monday, Owens said, was necessary because of an old state statute adopted years ago when the roll was made up by hand. The special meeting, such as was held by the commission Monday, is called, to make sure there are no changes in the roll that was originally submitted and the

roll that is delivered to the county tax collector.

Today's modern methods of book-keeping which employs the use of machines, eliminates any possibility of error in the two tax rolls, Owens said.

The assessor said the county's tax bills would probably be in the mail immediately.

The commission received and accepted the roll and ordered that it be turned over to the tax collector.

Tax assessments this year, Owens said, show \$19 million increase over last year. Total valuation was set at \$257,086,716 on which \$176,818,626 will be levied to raise the county's \$6 million budget for the coming year.

Owens also listed an increase of 2,261 homestead exemptions over last year's assessments.

Cinematic Chatter

By Malcolm Millar

Hello everybody! The marks of a winner in the glamour department, says red-headed Rhonda says, "Clothes that flaunt sex are resented by other women. On the other hand, many of the extreme high-fashion styles, while appealing to women, are calculated to make the average male take on renewed interest in golf and poker." Other Rhonda Fleming beauty recommendations are: Skin texture is the most important attribute of the face, which means good diet and proper skin cleansing. The greatest aid to achieving a natural kind of allure is the proper hair-do, for almost every woman soft, simple and shoulder-length. Training in posture is important to achieve a love-

ly neckline. The neck should move as a perfect pivot with the shoulders moving slightly when the woman turns her head. Flabby arms are a great threat to beauty and exercise is the only answer. "Size 24 to 36 seems to be the standard bust measurements," says Rhonda. "The thing to avoid is the obvious throwing out of the chest to accentuate the bust, or slumped shoulders that hide the bust line." A 24 inch waistline, slightly rounded hips about an inch bigger than the bust measurements, and, above all, erectly posed bearing without appearing stiff are the concluding beauty recommendations of this lovely star. See you at the movies—Mal.

"Blind Man's" Bluff

You know how Handy Turner lown at the hardware store goes in for weird advertising stunts. Well, when Y came to plugging his new Venetian blind department, his enthusiasm nearly landed him in trouble.

Handy painted a warning on the tailboard of his truck: "Caution—blind man driving." "Had driven about a mile," Handy says, "when a state trooper stopped me and told me that sign might cause trouble. Guess he was right. From now on I'll advertise in the *Clarion*."

From where I sit, I agree—the highway is no place for jokes. We all ought to be considerate of the other fellow when we're driving. In fact, let's respect our neighbor's right of way *always*. Then, when we have differences of opinion—say about the best route to Centerville, or whether beer or buttermilk is better with lunch—there will be less chance of anybody developing any "blind" spots.

Uptegrove Sing For Canal Pt. Lions

Canal Point Lions at a dinner meeting in the community park building Monday night were entertained by the Uptegrove Quartet, a Glades gospel singing group, which presented a brief concert of songs. Members of the quartet were introduced by O. H. Sheppard, program chairman.

President Osceola Uptegrove appointed A. R. Harrington to head a committee to investigate the proposed extension of a gas line south from Sebring and find out the chances of having this line routed along the thickly populated east shore of Lake Okeechobee.

It was reported that several hundred dollars are still due on the newly installed electric scoreboard at Lair Field, a joint project of the Pahokee and Canal Point Lions, and tentative plans for benefit projects that might assist in meeting the payments were discussed but no definite action was taken.

Florida Voters Reach New High

The number of citizens of voting age in Florida will stand at its peak total of 2,217,000 persons by November 1 of this year.

Since 1950 Florida has gained 406,000 residents over 21, a 22.4 percent increase in this age group. Only two other states have had a greater percent gain and the national figure is 3.3 percent, the Florida State Chamber of Commerce brought out yesterday.

Age groups within the states population are given in detail in this week's business review of the State Chamber's research and industrial division. By November 1 Florida's

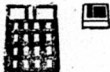

total population will reach 3,588,000 made up of 3,480,000 resident civilians and 108,000 military personnel stationed permanently in the State.

The civilian group includes 1,263,000 (36 percent) persons under 21 years of age; 1,903,900 (55 percent) from 21 to 65 and 313,200 (9 percent) who have reached 65 or more.

During recent years the trend in Florida's population has been toward a greater proportion of numbers of persons under 21 and over 65 years of age.

James Frank Long of Magnet, Nebr., has arrived in Pahokee for a visit with his daughter, Mrs. Georgia Tibbitts, and family.

Stuart Dropped By Pahokee Gridders

In their 27-6 victory over Stuart on Lair Field Friday night, with the new electric scoreboard working just as pretty as one could wish for, the Blue Devils started to work with the opening kick-off. Quarterback George Mills and Halfbacks Pat Turbeville and John Williams in 11 plays drove from their own 30 to the Stuart one-yard line where Williams cut through right tackle for the TD but the pass attempt for the point was no good. A little later in the same quarter the Blue Devils drove from their own 45 to the Stuart 17 where Fullback Richard Weeks on a cross-buck tore through center for the TD and Mills passed to End Don Waddell for the point, giving the Blue Devils a commanding 15-0

lead at the end of the first quarter. The Stuart Tigers, still not whipped nor discouraged, came roaring back in the second quarter when their Fullback Fred Reddish took a pitchout from Quarterback Leslie Kindberg on the Pahokee 47 and went all the way to paydirt but Kindberg's kick was short.

The Tigers continued to put up a good scrap until the third quarter when End Chat Clark blocked one of their punts, with the Blue Devils gaining possession of the ball on the Stuart 35. In three plays Pahokee was at the Stuart 9 where Weeks went through right guard for the TD and Turbeville broke through the left side of the line for the point. In the final period the Blue Devils, starting from the Stuart 49, scored again when Mills went through center on a quarterback sneak from the one-yard line. Mills then passed to Clark for the point.

Former Pastor Dies In Eau Gallie

The Rev. G. E. Bennett, who served as pastor of the Canal Point Methodist Church 18 years ago, died at his home in Eau Gallie this past summer. Mrs. Bennett, his widow, of Eau Gallie attended the district seminar of the Methodist Woman's Society of Christian Service at the Canal Point Methodist Church on Thursday of last week and while here told friends of the Rev. Bennett's death. He was retired from the ministry at the time of his death.

Nineteen members of the Canal Point Methodist WSCS responded to the call by their president, Mrs. J. P. Parker, for a work day at the church last week with good results in the cleaning program for the interior of the church building.

Expect Ample Supply Of Labor This Fall

L. V. McClelland of Canal Point, Glades farm labor placement officer for the Florida State Employment Service, predicted there will be an amply supply of field and harvest hands to meet the needs of Glades growers this fall and winter upon his return from a two-weeks' labor recruiting tour of Alabama and South Carolina.

Drought conditions in both states resulted in poor crops this summer, with most of the Negro sharecroppers not making enough money to see them through the winter. After visiting labor recruiting offices and interviewing the Negro laborers personally, McClelland said he received assurances there will be a sufficient supply of farm labor moving into South Florida later this fall with the start of the harvest of Glades vegetables.

House Speaker To Address Democrats

"Ted" David, Speaker-Designate of the Florida House of Representatives for the 1955 legislative season will be principal speaker at the Democratic Harmony Dinner to be

held in West Palm Beach this week.

Only thirty-five years of age, Ted David has made every year of his adult life count in civic betterment. An honor graduate of University of Georgia and University of Miami; he spent four years in the U. S. Army, emerging with rank of captain, before embarking on his phenomenal rise in politics. Christian Science Group Of Canal Point

The ever-availability of the healing power of the Christ, Truth, will be brought out in Christian Science services this Sunday.

"Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon. Selections to be read from the Bible include the account of Christ Jesus' healing of the leper as given in Matthew (8:1-3): "When he was come down from the mountain, great multitudes followed him. And, behold, there came a leper and worshipped him, saying, Lord, if thou wilt, thou canst make me clean. And Jesus put forth his hand, and touched him, saying, I will; be thou clean. And immediately his leprosy was cleansed."

Among the passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy is the following (142:31): "Truth is God's remedy for error of every kind, and Truth destroys only what is untrue. Hence the fact that, to-day, as yesterday, Christ casts out evils and heals the sick."

New Passenger Station For Miami

MIAMI—Approval was given by the Florida Public Utilities Commission to an offer of the Florida East Coast Railroad to build a new passenger station on its 35th Street property.

The City of Miami and the Dade County Commission had urged the construction of a union station near the International Airport that would serve both the Florida East Coast and the Seaboard Airline Railroads but the Utilities Commission felt that evidence in the case did not justify such an order.

The new FEC station will cost \$2,500,000 and replaces the old downtown station.

WHICH ONE DO YOU WANT?

you can have your dream house—this easy way!

A dream? Not at all. Thousands of people with modest incomes have been able to save the down payment, or the whole price, of the home of their dreams—because they invested in U. S. Savings Bonds on the Payroll Savings Plan. Look at the chart on this page. See how you can accumulate enough money for the down payment on a home. Or enough for your children's college education or a retirement income. And by saving only a few dollars a week, too.

The answer is that you save *systematically* on the Payroll Savings Plan. All you have to do is tell your pay office how much you've decided to save each payday (it can be as little as a couple of dollars). After that your money is saved for you, *before* you get your salary. Then each time enough has accumulated, it is invested in a Bond, and the Bond turned over to you:

And remember—your U. S. Savings Bonds now will bring you an average of 3% interest, compounded semiannually, for 19 years and 8 months. That's why the money you put into Bonds now grows to such a surprisingly big sum.

Why don't you start—today? Sign, where you work, for the Payroll Savings Plan. Or, if you're self-employed, have your banker enroll you in the Bond-A-Month Plan. It's as easy as the Payroll Savings Plan.

How you can reach your savings goal on the systematic Payroll Savings Plan

	If you want approximately		
	\$5,000	\$10,000	\$25,000
Each week for 9 years and 8 months, save...	\$8.80	\$18.75	\$45.00
Each week for 19 years and 8 months, save...	\$3.75	\$7.50	\$18.75

This chart shows only a few typical examples of savings goals and how to reach them through Payroll Savings. You can save any sum you wish, from a couple of dollars a payday up to as much as you want. The important thing is, start your Plan today!
